COMPREHENSIVE PROJECT MANAGEMENT

PROJECT MANAGEMENT FOR ALL PROFESSIONALS

WHY?

All businesses rely on their organization’s ability to achieve their projects’ objectives. In order to ensure this vital achievement, currently many organizations are developing and looking for the best project managers for their projects.

The demand for globally attuned project managers with suitable experiences and up-to-date knowledge is higher than ever in Indonesia, both from national and multinational companies.

Comprehensive Project Management™ workshop program is specifically designed to help project professionals or practitioners in learning how to manage their project in line with A Guide to the Project Management Body of Knowledge (PMBOK® Guide) issued by Project Management Institute (PMI)®, USA.

WHO SHOULD JOIN?

Comprehensive Project Management program is developed for existing functional managers, project managers, future project managers, project team members and any professionals who wish to know how to manage their project properly and in compliance to globally recognized standard.

This program is also for any project professionals who wish to pursue Certified Associate Project Management (CAPM)® or Project Management Professional (PMP)® certification.

PROGRAM OBJECTIVES

This workshop offers a new reliable approach in managing projects by combining the practical with the theoretical approaches of up-to-date project management knowledge and skills.

After this workshop, the participants will:

- Understand the project management framework.
- Understand the PMBOK® Guide standards and processes in managing project.
- Be able to apply the tools and techniques of managing project.
- Use PMBOK® Guide to help their actual projects.
- Be able to use knowledge from this workshop to pursue project management certification issued by PMI® such as CAPM® or PMP®.

All in all, participants will be able to manage their project(s) and achieve the objectives well whilst doing it in a professional-and-structured way.
